

IN THE SPECIFICATION

Please cancel the entire specification of the application, as filed, including the List of Reference Numerals, as constituted by the verified translation of PCT/DE03/01332, in favor of the concurrently printed Substitute Specification. That substitute specification is the result of the entry into the verified translation of a cross-reference to related applications, of suitable section headings; the deletion of reference to the claims and the List of Reference Numerals; the correction of minor errors in phrasing, grammar and punctuation, and a general revision of the verified translation to place the substitute specification more in a form in accordance with U.S. practice. These various changes and corrections do not constitute any new matter. A marked-up copy of the verified translation, showing the changes made hereto, to arrive at the substitute specification, is enclosed for the Examiner's review.
